Original publisher: Washington, DC : Dept. of Veterans Affairs, Office of Inspector General, 2006 OCLC Number: (OCoLC)301592336 Subject: Homeless veterans -- Services for -- United States -- Evaluation. Excerpt: . . . Evaluation of the Veterans Health Administration Homeless Grant and Per Diem Program justification. Without complete and up-to-date assessments and treatment plans, providers could not be assured that services were targeting current needs of veterans. Additionally, clinicians should document each veterans conditions and progress frequently enough that other care providers can determine the overall status of the veteran and provide appropriate continuity of services, as needed. Interdisciplinary treatment planning is often used in medical and social service settings as a means to enhance client outcomes. When veterans are readmitted to GPDs, clinicians should document that the placements were clinically indicated so as to avoid duplication of previously unsuccessful placements and treatment plans. Recommended Improvement Action 1. The Acting Under Secretary for Health should require VHA to ensure that: a. VA-GPD liaisons or designees complete and submit Form Xs to NEPEC in a timely manner. b. National GPD Program Office staff monitor Form X completion rates by VAMCs and require consistently underperforming sites to take corrective actions. c. VA and GPD provider employees adequately assess each veterans needs, devise treatment plans to meet those needs, and document the case records to reflect these services. d. Clinicians comply with documentation standards regarding frequency of notes, treatment planning revisions, and veteran progress in the program to provide involved staff with an accurate depiction of the veterans status. e. Clinicians conduct and document interdisciplinary treatment planning. f. VA clinicians review and document agreement with placements and treatment plans for those veterans with multiple readmissions.
