

Lecture on the Turning Powers of Ships (Classic Reprint) (Paperback)

By W H White

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Lecture on the Turning Powers of Ships In acceding to the request of the council, and preparing a paper on The Turning Powers of Ships, it seemed advisable to consider those parts of the subject which have the greatest practical interest for naval officers, as affecting the management of existing ships of war. In these vessels the rudder is the chief source of maneuvering power, aided in many cases by the action of the propellers; and to these means of turning i shall chiefly refer. Of the various plans which have been pro posed or tried for increasing the maneuvering capabilities of ships I shall say but little; t)f the mechanical appliances by which the movements of the helm are controlled I shall attempt no description. My principal aim will be to summarize and illustrate, in as brief and practical a manner as possible, the principles which govern the behavior of screw steamships when turning under the action of their rudders or propellers. The general theory of the action of the rudder was clearly stated...
